

This certificate is presented to:
Govind Mittal

For Going Above and Beyond
Q4-2019

Govind noticed that there was no calculation set to hold our battery vendors accountable for their performance guarantee that they sold us. He created the calculation, worked with the vendor to get the method approved, and then calculated that the vendor owed us \$26,000 from the first year of operation on ONE site alone. This commitment to leading the industry and filling in gaps where noticed is impressive and needs to be recognized at SunPower.

Nominated by: Sarah Herman
